

A preview of the ISAM 2018 Symposium

The International Society for Aerosols in Medicine (ISAM) will hold a one-day symposium on May 18, 2018 in San Diego, CA, US. “Updates and Controversies Related to Inhaled Aerosols” is open to industry, regulatory and academic scientists as well as clinicians and fellows.

Symposium topics

Five sessions will feature the following topics:

- E-cigarettes and their impact on pulmonary health
- Updates on bronchial challenge testing
- Controversies on inhaled antibiotics
- Adherence and digital health
- Personalized medicine: Which inhaler is best for your patient?

Talks will be a mix of invited speakers and oral presentations selected from submitted abstracts. The inhaled antibiotics session will present speakers discussing pro and con views of the subject. The symposium will take place at the University of California and include an evening networking reception.

ATS Annual Meeting

The American Thoracic Society will hold its annual meeting at the San Diego Convention Center, May 18-23, for those participants interested in attending both events.

When?

May 18, 2018

Where?

San Diego, CA, US
