

A preview of the 7th Medicon Valley Inhalation Symposium and Workshop

The 7th Medicon Valley Inhalation Symposium and Workshop will take place October 1-4, 2018 in Lund, Sweden. Participants may register for either or both events. A conference dinner will be held on the evening of October 3.

The MVIS Symposium

The symposium begins the morning of October 3 and continues through early afternoon on October 4. Its theme is, "Future Opportunities of Inhalation," with preliminary topics to include new drugs and clinical, formulations, devices, dissolution, toxicology and pre-clinical, and new opportunities and regulatory. Individual presentations will discuss biomolecules, inhaled oxytocin, interactive blends, nasal products, spray nozzles, bioequivalence testing, lung clearance, modeling, toxicology of plastics and pharmacodynamics studies.

The MVIS Workshop

Designed for those who are new to inhalation, the workshop will run from the afternoon of October 1 through October 2. Lectures and demonstrations are expected to introduce devices (DPI, MDI and jet, ultrasonic and mesh nebulizers), drug discovery, toxicology, formulations for DPIs and liquids, testing and clinical aspects of early development.

When?

Workshop: October 1-2, 2018

Symposium: October 3-4, 2018

Where?

Lund, Sweden
