

Previewing PharmSci360 2018

The 2018 AAPS annual meeting, now named PharmSci360, will be held November 4-7, 2018 in Washington, DC, US.

Keynote topics will include the US Food and Drug Administration's (FDA's) perspective on drug/device combination products, organ-on-a-chip, and modeling and simulation in development and regulatory applications. Lecture tracks will be: preclinical development, bioanalytics, clinical pharmacology, manufacturing and bioprocessing, and formulation and quality. The topic of rapid and cost-effective delivery of new drugs to patients will have daily symposia in each track.

The conference will also feature scientific posters and a technology exhibition.

FDA pre-conference workshop

A November 3 pre-conference workshop given by FDA representatives will use presentations, breakout sessions and mock pre-Abbreviated New Drug Application meetings to discuss development of generic drugs, including orally inhaled and nasal drug products, challenges of bioequivalence, *in vitro* testing, product quality evaluation and FDA Guidances.

When?

November 4-7, 2018

Where?

Washington, DC, US
