

## A preview of DDL2018 and the IPAC-RS workshop

**D**rug Delivery to the Lungs (DDL) 2018 will take place December 12-14, 2018 at the Edinburgh International Conference Centre in Edinburgh, UK.

The conference will begin with the DDL lecture; session themes will be lung diseases and treatments, real-world challenges, thinking outside the box, physics meets pharmaceuticals, and novel formulations and process technology.

### Multiple awards

During the conference, several awards will be presented, including the DDL Emerging Scientist Award and the Pat Burnell Award, which lets a young scientist present their work as a poster and on the podium. The best academic poster and best industry poster will also be recognized. The scientific poster and product exhibition will be co-located to facilitate networking.

### IPAC-RS pre-conference workshop

A pre-conference workshop on the morning of Wednesday, December 12 will be presented by IPAC-RS on industry's positions regarding the 2018 US FDA draft guidance for MDIs and DPIs, the European Medical Device Regulations and pharmacopeial updates.

#### When?

December 12-14, 2018
