

# A preview of Inhalation Asia 2019

**I**nhalation Asia 2019 will be held November 13-15, 2019 at the Hong Kong Science and Technology Park in Sha Tin. Presented by a committee of organizers, it will be hosted by the Chinese University of Hong Kong (CUHK Pharmacy).

## Program topics

The conference will feature the following inhalation topics:

- Inhalation drug delivery in Japan
- Making a generic Ellipta (GSK)
- Soft mist inhalers
- Designing inhalers
- Nasal delivery
- Digital therapeutics

## Posters, an exhibition and speed-networking

The event will also include a technology exhibition, posters and the Inhalation Asia “speed-networking event,” which lets participants meet as many people as possible, including potential colleagues, suppliers and clients.

The Inhalation Asia website has updated information on registration, consideration of abstracts for podium and poster presentations, company sponsorships and other topics.

Inhalation Asia also provides open access to its conference archives.

### When?
