

# Previewing the 2021 ISAM Congress

The International Society for Aerosols in Medicine (ISAM) will host the 23rd International Congress in Boise, Idaho, US, May 22-26, 2021.

The Congress will present 13 scientific sessions:

1. Pediatrics
2. Adult Critical Care
3. Viral Pandemics, Transmission, Protection and Treatments (COVID-19)
4. Special Topics in Inhalation Toxicology
5. Utilization of Fluorinated Materials in Respiratory Drug Delivery
6. Inhalation Therapy for Asthma and COPD
7. Health Impact of Fire Smoke
8. Current Trends in Cystic Fibrosis (CF), Pulmonary Hypertension (PAH) and Idiopathic Fibrosis (IPF)
9. Aerosol Therapies for the Developing World

10. Bacteriophages and Respiratory Applications
11. Scientific Basis for Dissolution Testing of Inhaled Products
12. Imaging and Deposition
13. Hot Topics

### Workshops, posters, exhibition, awards

Prior to the Congress, six workshops will be held. The event will also include scientific posters and a technology and services exhibition. In addition, four awards that recognize excellence in aerosols in medicine will be presented. The evening of Tuesday, May 25 will feature a Basque Market Dinner.

### Virtual participation

“In response to potential travel concerns in 2021, ISAM is arranging to stream and record all workshops, lectures, posters and exhibitor information to allow all participants to experience the ISAM Congress in Boise.”

#### When?

May 22-26, 2021

#### Where?

Boise, Idaho, US
